# OFFERING COMPREHENSIVE SUPPORT FROM ALLERGY IMMUNOTHERAPY EXPERTS

---

The Stallergenes Greer Service Team can be reached in person, by phone, or online, to answer your questions about our allergy immunotherapy services and products.

## The Stallergenes Greer Service Team

### *Allergy Account Specialist*

An **Allergy Account Specialist** will work directly with you to help find the right options for your patients in your practice

### *Customer Care Specialist*

Knowledgeable and friendly **Customer Care Specialists** can guide you through our ordering process and help navigate our wealth of allergy immunotherapy resources to find what is needed

### *Medical and Scientific Affairs Team*

Members of our **Medical and Scientific Affairs Team** provide in-depth medical, technical, and scientific information, and support allergy immunotherapy educational needs

## ORDERING INFORMATION

To set up an account or place an order with Stallergenes Greer, please contact a Customer Care Specialist at **877.777.1080**

### ORDERING

For quality service, specify account number, item number, product name, vial size, and dilution as shown in the catalog. **Stallergenes Greer extracts are available in both protein nitrogen units (PNU) and weight to volume (w/v).**

Certain extracts and mixtures cannot be supplied in the 1:10 w/v strength due to excessive precipitation. These will be supplied at the strongest possible w/v strength. Glycerinated extracts can be supplied in 1:20 w/v or weaker dilutions. Extracts ordered in PNU are available in aqueous formulations only.

Veterinary medical license must be on file. Proper identification will be required from institutions.

### MINIMUM ORDER

A minimum order of \$25.00 is required. Please combine orders to achieve minimum.

### PREMIUM ALLERGENS

Specific products have been designated as premium allergens due to low utilization, decreased availability of source materials, increased costs associated with the collection/extraction process, and/or market conditions. These items carry a surcharge. Please consult your Customer Care Specialist for more information.

### SHIPPING

All extracts are shipped overnight for next day delivery. All other products ship via UPS 3 Day Select® or Ground unless otherwise specified. Shipments with ice packs are available upon customer request, with an additional charge.

### TERMS

FOB Lenoir, NC. Shipping and insurance charges are prepaid and added to the invoice. All prices are in US dollars. All prices are subject to change without notice. We accept payment via MasterCard®, Visa®, Discover Card®, and American Express®.

Stallergenes Greer offers a secure way to make payments online at your convenience. There is no charge and signing up is easy.

For more information about this self-pay feature, please contact a Customer Care Specialist at 877.777.1080.

### RETURNS

Please contact a Customer Care Specialist at 877.777.1080 for prior approval for all product returns. Any shipping error must be reported within 7 days of receipt of the order. A Return Goods Authorization Number must accompany all product returns to Stallergenes Greer within 10 days of the return notification.

Allergenic extracts and sterile products cannot be returned unless due to a Stallergenes Greer error. Ancillary supplies must be returned in unopened, undamaged cases. Credit is not issued for duplications resulting from customer errors in ordering.

### WARRANTY

We warrant only that solutions in unopened and undamaged vials are sterile and correctly labeled. Once shipment is made, we have no control over storage conditions, methods of usage, or dosage administered.

### TELEPHONE AND FAX ORDERS

To order by telephone, call our Customer Care Specialists:  
**877.777.1080**

To order by fax, dial: **877.777.1090**  
or **828.759.7440**

For customers outside the United States, call: **828.610.2722**

To email, write to:  
**uscustomercare@stallergenesgreer.com**

Our Customer Care Specialists are available Monday through Thursday, 8 AM to 7 PM, and Friday, 8 AM to 5 PM Eastern Standard Time.

## SKIN TESTING DEVICES

## Skintestor OMNI™ System

The Skintestor OMNI System is a self-loading, multiple-site skin testing applicator with associated testing supplies.

| Item #                                                                                                                                                                                                | Description |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------|
| <b>Skintestor OMNI™</b>                                                                                                                                                                               |             |
| One pack contains 10 sterile Skintestor OMNI devices. There are 10 packs or 100 devices per box. Upon request, customized, laminated, color labels are available for all trays at no additional cost. |             |

**OM203C**

10 packs per box; 100 devices per box

## Skintestor OMNI™ Trays

The Skintestor OMNI System includes the Skintestor OMNI self-loading, multiple-site, skin testing device for use in either 20- or 40-well labeled trays. Three 20-well trays fit into a carrier tray to create a 60-well option. The Skintestor OMNI device fits securely over its wells to maintain the extract integrity and shields the extract from evaporation.

|               |                                                                              |
|---------------|------------------------------------------------------------------------------|
| <b>OMT1</b>   | Skintestor OMNI Tray (1 sterile 20-well tray)                                |
| <b>OM303C</b> | Skintestor OMNI Tray Pouch<br>(5 individually wrapped sterile 20-well trays) |
| <b>OM503</b>  | Skintestor OMNI Carrier Tray<br>(holds 3 sterile 20-well trays)              |
| <b>OM403C</b> | Skintestor OMNI Tray (1 sterile 40-well tray)                                |

## 40-Well Skintestor OMNI™ Evaluation Package

|              |                                           |

|              | Sample Skintestor OMNI Skin Testing Sheet |
|              | Usage Guide for Skintestor OMNI           |

Skintestor OMNI™ is manufactured by QTI Corporation and distributed by Stallergenes Greer.

## The GREER® Pick® System

Designed to be easy to fill while maintaining extract integrity, GREER Pick is a self-loading, single-site disposable skin testing system.

| Item #                                                                         | Description          |
|--------------------------------------------------------------------------------|----------------------|
| <b>GREER® Pick®</b>                                                            |                      |
| Packaged in 50 sterile pouches each containing 42 picks; 2,100 picks per case. |                      |
| <b>GP-1C</b>                                                                   | 2,100 picks per case |

## GREER® Pick® Well™

Packaged in sterile pouches each containing 24 wells.

|             |                    |
|-------------|--------------------|
| <b>GW-2</b> | 24 wells per pouch |
|-------------|--------------------|

## GREER® Pick® Tray™

The clear GREER Pick Tray is designed to make extract levels easy to see, and the closed-well system is designed to maintain extract integrity and provide spill-free transporting. Each stackable tray can be labeled for easy identification. The GREER Pick Tray is available as a 60-well or 40-well tray. Upon request, customized, laminated, color labels are available for all trays at no additional cost.

|              |                                        |
|--------------|----------------------------------------|
| <b>GY-5</b>  | Holds 60 wells per tray                |
| <b>GY-40</b> | Holds 40 wells per tray (lid included) |

## GREER® Pick® Tray™ Lid

The tabbed lid helps pop the top effortlessly and provides spill-free transporting.

|              |                  |
|--------------|------------------|
| <b>GY-LD</b> | 60-well tray lid |
|--------------|------------------|

## 40-Well GREER® Pick® Evaluation Package

| Item #       | Description                                   |
|--------------|-----------------------------------------------|
| <b>GP-10</b> | 1 40-Well GREER Pick Tray (bottom component)  |
|              | 1 40-Well GREER Pick Tray Lid (lid component) |

# STERILE DILUENTS

Diluents come in a variety of fills. 30 mL and 100 mL vials are overfilled to ensure that their labeled amount can be withdrawn. GREER® Sterile Diluents™ (Normal, Buffered, HSA, and 10% Glycerin Saline) contain 0.4% phenol, which acts as a preservative by inhibiting microbial growth.<sup>1</sup> Two neck sizes give a choice of stopper diameter. The second number after the vial size is the outer diameter of the top of the vial in millimeters.

## Normal Saline

Also called Phenolated Saline. Water for injection (WFI) with 0.9% NaCl.

| Item #    | Fill/mL | Vial Size | Vial Seal Color | Qty/Pack |

## 50% Glycerin Saline

50% Glycerin Saline is often used to enhance the stability of extracts. 50% Glycerin Saline also helps protect the structure of allergenic proteins that may be particularly susceptible to degradation in solution and may help protect against the effects of prolonged exposure to room temperature.<sup>1</sup>

50% Glycerin Saline may be used to formulate prescriptions for sublingual immunotherapy. Its sweet taste makes sublingual extracts more palatable to pets<sup>2</sup> and enhances patient acceptance.<sup>3</sup>

| Item #    | Fill/mL | Vial Size | Vial Seal Color | Qty/Pack |
|-----------|---------|-----------|-----------------|----------|
| SA5007212 | 100 mL  | 100-20    | Silver          | 12       |

## Buffered Saline

Buffered Saline maintains extract solutions at physiological pH levels.<sup>4</sup> Contains sodium and potassium phosphates with 0.5% NaCl for isotonicity, in water for injection (WFI).

| Item #    | Fill/mL | Vial Size | Vial Seal Color | Qty/Pack |
|-----------|---------|-----------|-----------------|----------|
| SB2507145 | 4.5 mL  | 5-20      | Silver          | 25       |

## PLASTIC COLORED CAPS

| 13 mm Item #   | Cap Color | Qty/Pack |
|----------------|-----------|----------|
| <b>PCYEL13</b> | Yellow    | 25       |
| <b>PCORG13</b> | Orange    | 25       |
| <b>PCRED13</b> | Red       | 25       |
| <b>PCGRN13</b> | Green     | 25       |
| <b>PCPNK13</b> | Pink      | 25       |
| <b>PCPUR13</b> | Purple    | 25       |
| <b>PCBLU13</b> | Blue      | 25       |
| 20 mm Item #   | Cap Color | Qty/Pack |
| <b>PCYEL20</b> | Yellow    | 25       |
| <b>PCORG20</b> | Orange    | 25       |
| <b>PCRED20</b> | Red       | 25       |
| <b>PCGRN20</b> | Green     | 25       |
| <b>PCWHT20</b> | White     | 25       |
| <b>PCPNK20</b> | Pink      | 25       |
| <b>PCPUR20</b> | Purple    | 25       |
| <b>PCBLU20</b> | Blue      | 25       |

Snap-on, color-coded caps can be used to differentiate strengths of treatment extracts.

## VIAL RACKS

### GREER® Versa Vial Rack®

This one-color design features four easy-grip handles and tiered wells to hold multiple vial sizes. Racks are stackable with special drains in every well for quick cleanup. Three different base sizes allow for a better fit in most refrigerators.

| Item #         | Style                                | Vial Capacity         | To Hold                                                                                       | Size             |

## ANCILLARY PRODUCTS

### Styrofoam Containers

Sturdy, molded Styrofoam conforms to each vial allowing protection against breakage and provides additional insulation when exposed to heat or cold. Lightweight design makes shipping easy and economical.

| Item #       | Description                                                                      |
|--------------|----------------------------------------------------------------------------------|
| <b>STY1C</b> | Holds any of our 5 mL or 10 mL vials or two 2 mL vials (250/case)                |
| <b>STY5C</b> | Holds up to five 5 mL or 10 mL vials with space for instruction sheet (200/case) |

### Skin Reaction Guides

Skin reaction guides help clinicians accurately measure the wheal and erythema response following percutaneous skin testing. Both plastic reusable and paper disposable skin reaction guides are available.

|             |                                        |
|-------------|----------------------------------------|
| <b>SRG</b>  | Clear Plastic (1 pack contains 12)     |
| <b>SRG3</b> | Disposable Paper (1 pack contains 100) |

### Mailing Containers

Inner compartments (trays) slide into outer cardboard cartons (boxes) for quick packaging. Sturdy material designed to help protect vials from breakage during transportation.

| Item #           | Vial Size Type           | Holds   | Qty/Case |
|------------------|--------------------------|---------|----------|
| <b>5133B</b>     | 5 mL (13 mm neck)        | 3 vials | 500      |
| <b>5133T</b>     | 5 mL (13 mm neck)        | 3 vials | 500      |
| <b>5136B</b>     | 5 mL (13 mm neck)        | 6 vials | 500      |
| <b>5136T</b>     | 5 mL (13 mm neck)        | 6 vials | 500      |
| <b>5203B</b>     | 5 mL (20 mm neck)        | 3 vials | 500      |
| <b>5203T</b>     | 5 mL (20 mm neck)        | 3 vials | 500      |
| <b>5206B</b>     | 5 mL (20 mm neck)        | 6 vials | 500      |
| <b>5206T</b>     | 5 mL (20 mm neck)        | 6 vials | 500      |
| <b>10133B</b>    | 10 mL (13 mm neck)       | 3 vials | 500      |
| <b>10133T</b>    | 10 mL (13 mm neck)       | 3 vials | 500      |
| <b>10136B</b>    | 10 mL (13 mm neck)       | 6 vials | 500      |
| <b>10136T</b>    | 10 mL (13 mm neck)       | 6 vials | 500      |
| <b>5203C-100</b> | 5 and 10 mL (20 mm neck) | 3 vials | 100      |
| <b>5206C-100</b> | 5 and 10 mL (20 mm neck) | 6 vials | 100      |

These items include both boxes and trays.

Note: B in item number indicates boxes.

Note: T in item number indicates trays.

Note: The 5203B, 5203T, 5206B, and 5206T are packed in a case of 500 trays/boxes.

### ANCILLARY PRODUCTS
